

Los alumnos de 4º DIVER realizaron recientemente una encuesta a nivel del centro para averiguar los idiomas que se hablaban en nuestro instituto. Este trabajo tiene como fin el entender lo que es la “glotofobia” (= la discriminación hacia las personas por el acento con el que hablan), una cuestión especialmente relevante en nuestro centro dado el carácter multicultural aquí presente. Tomar conciencia de esta realidad puede llevar a convivir de mejor forma o por lo menos, aprender a respetar las diferencias que es al final lo que nos enriquece.

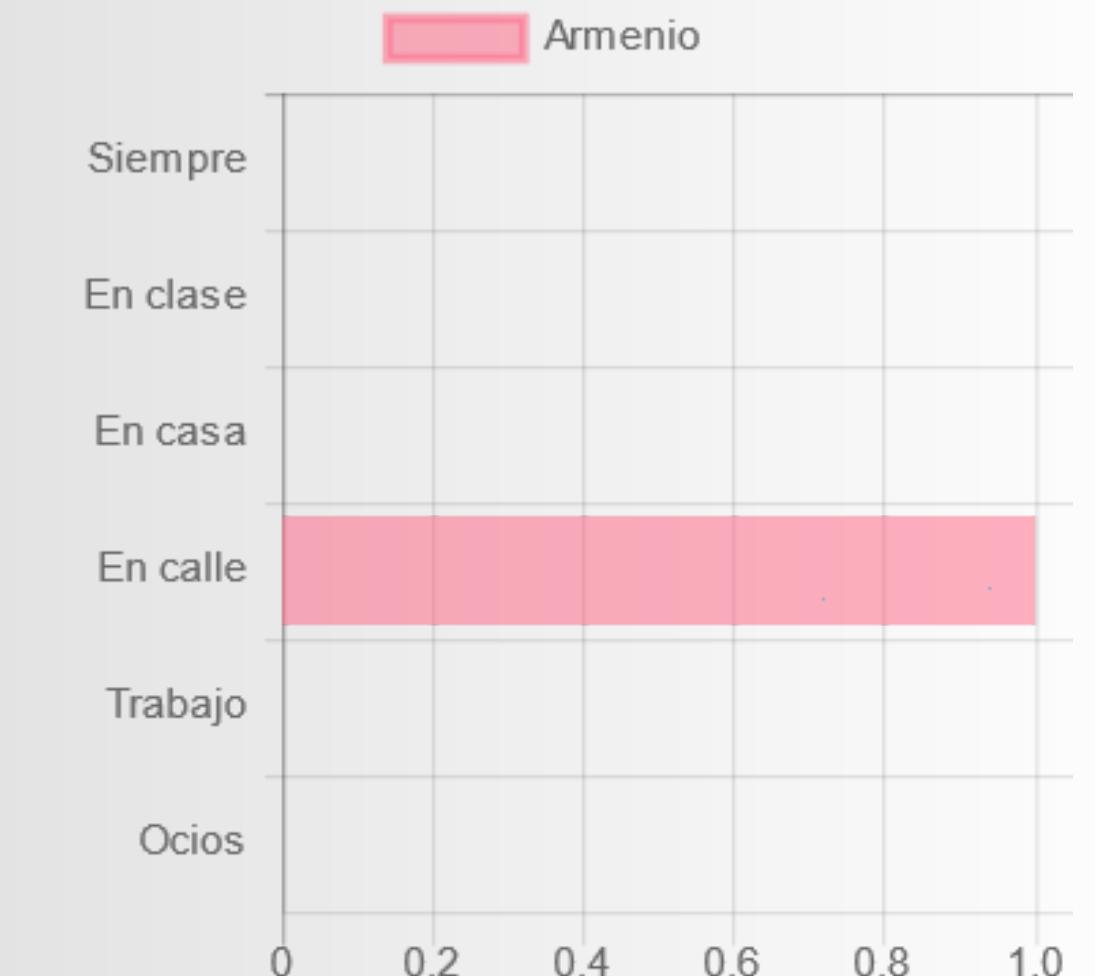

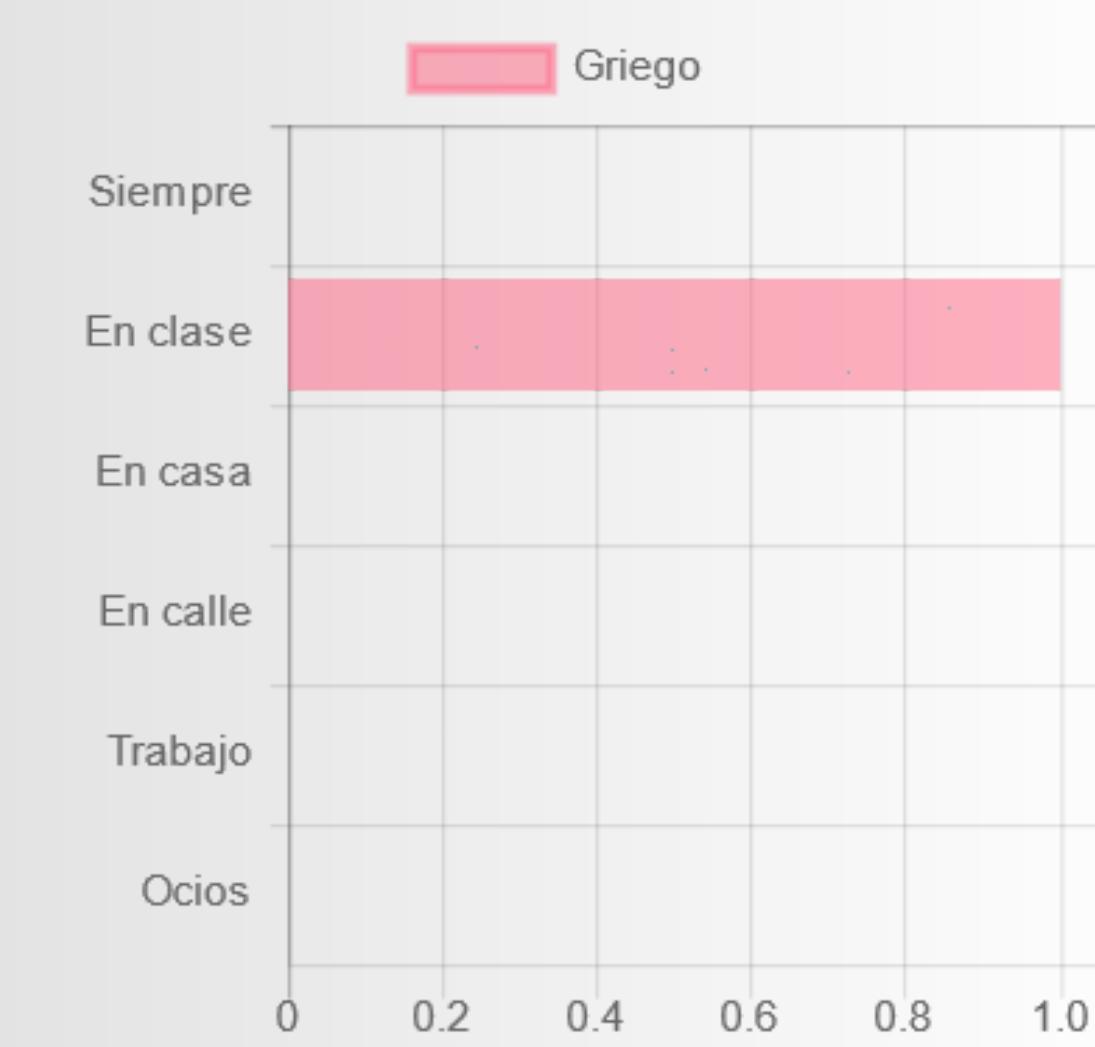

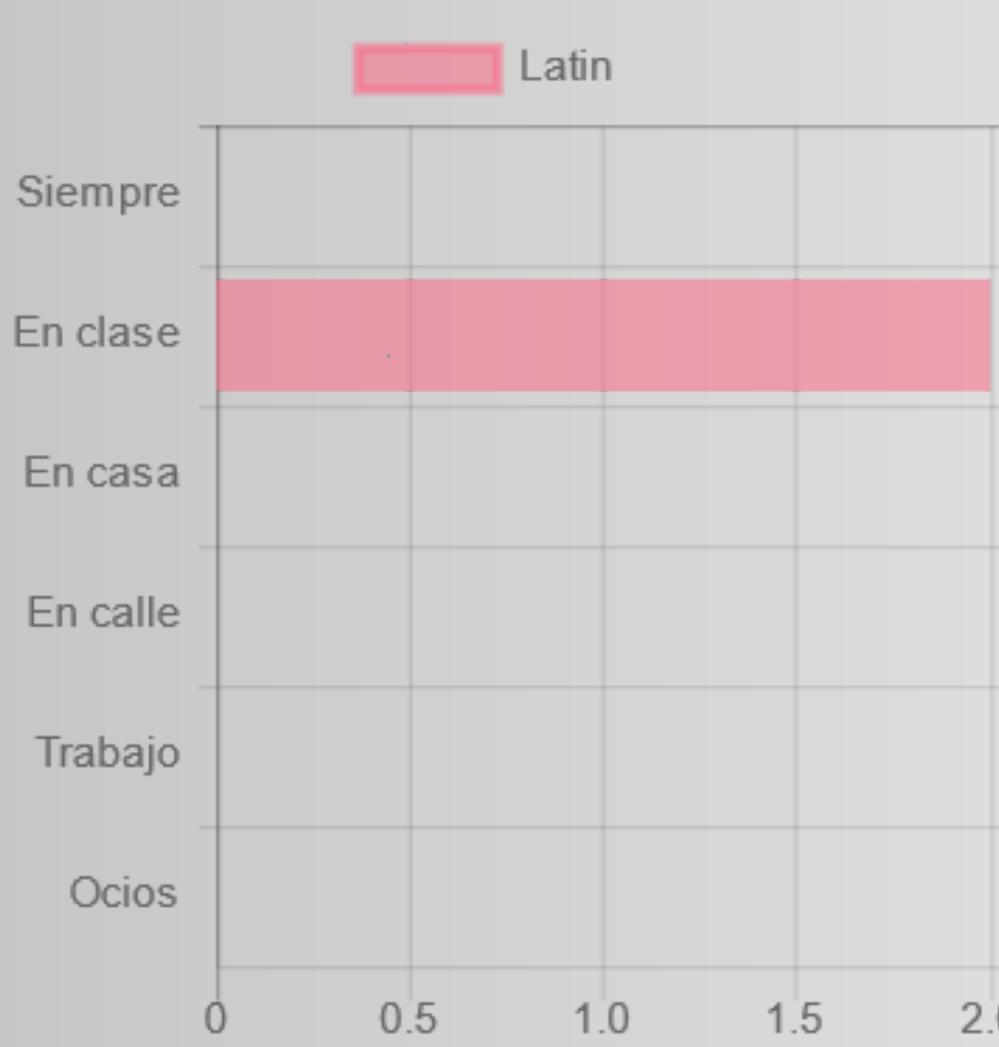

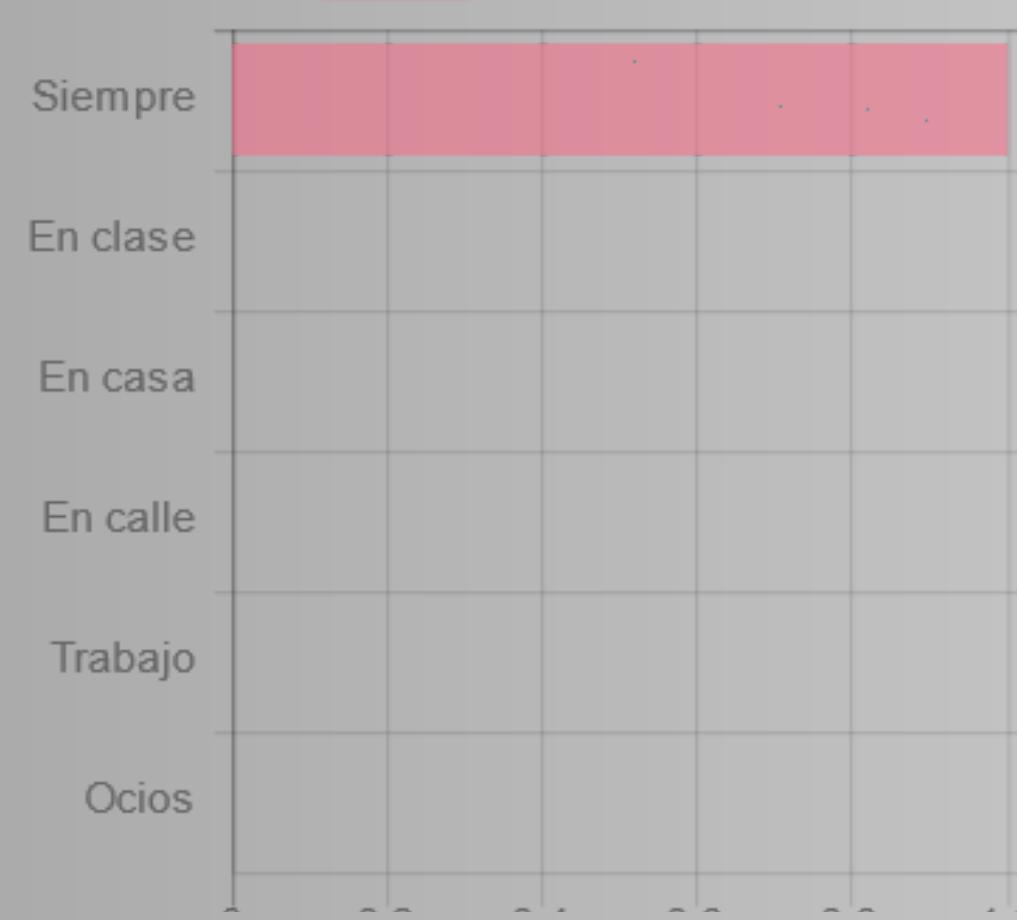

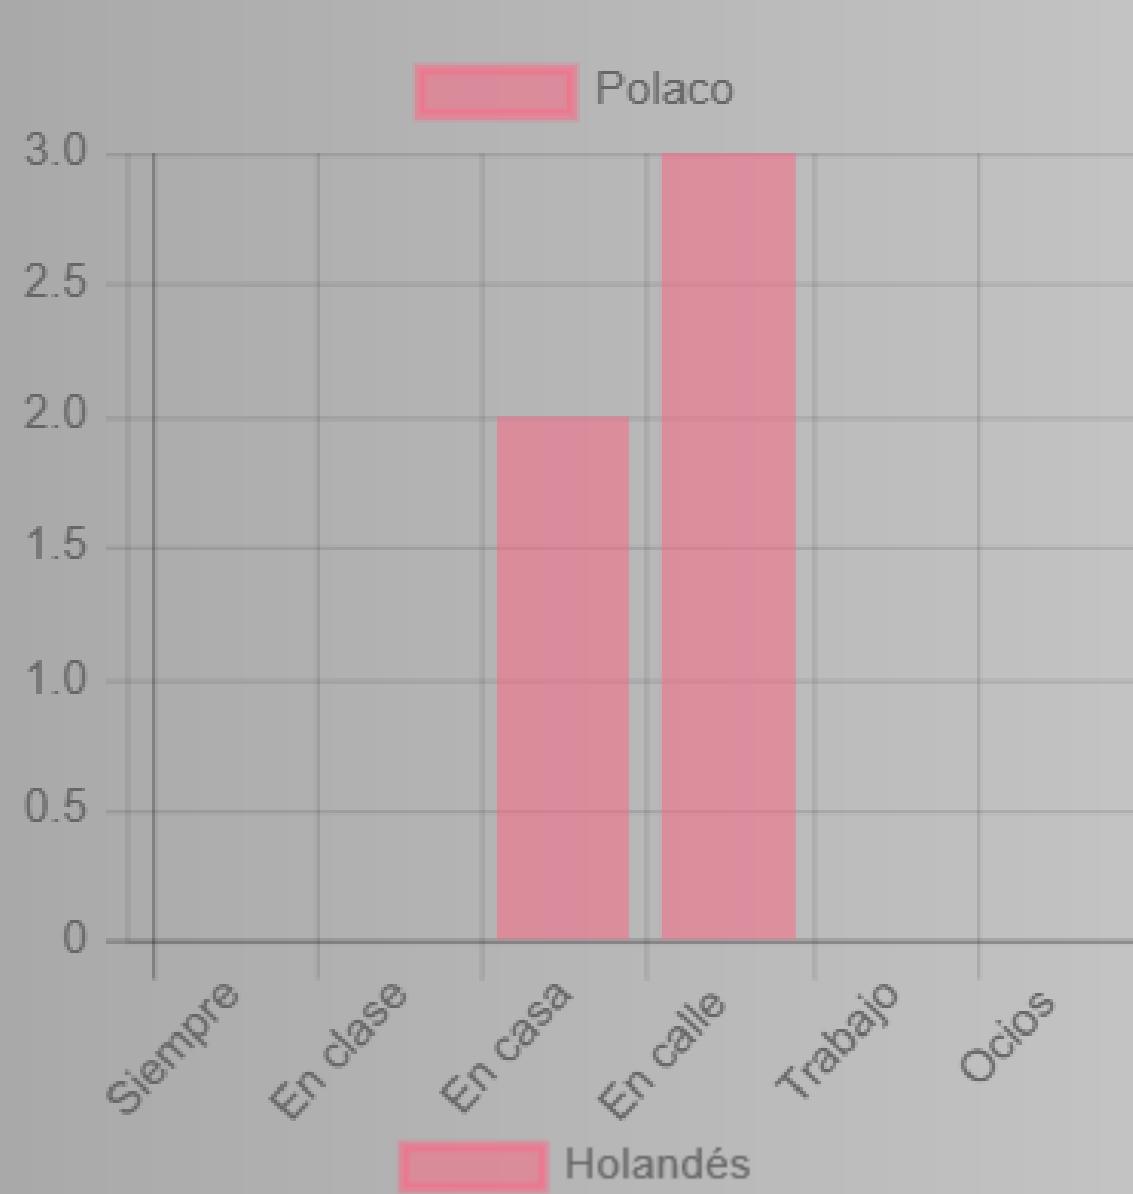

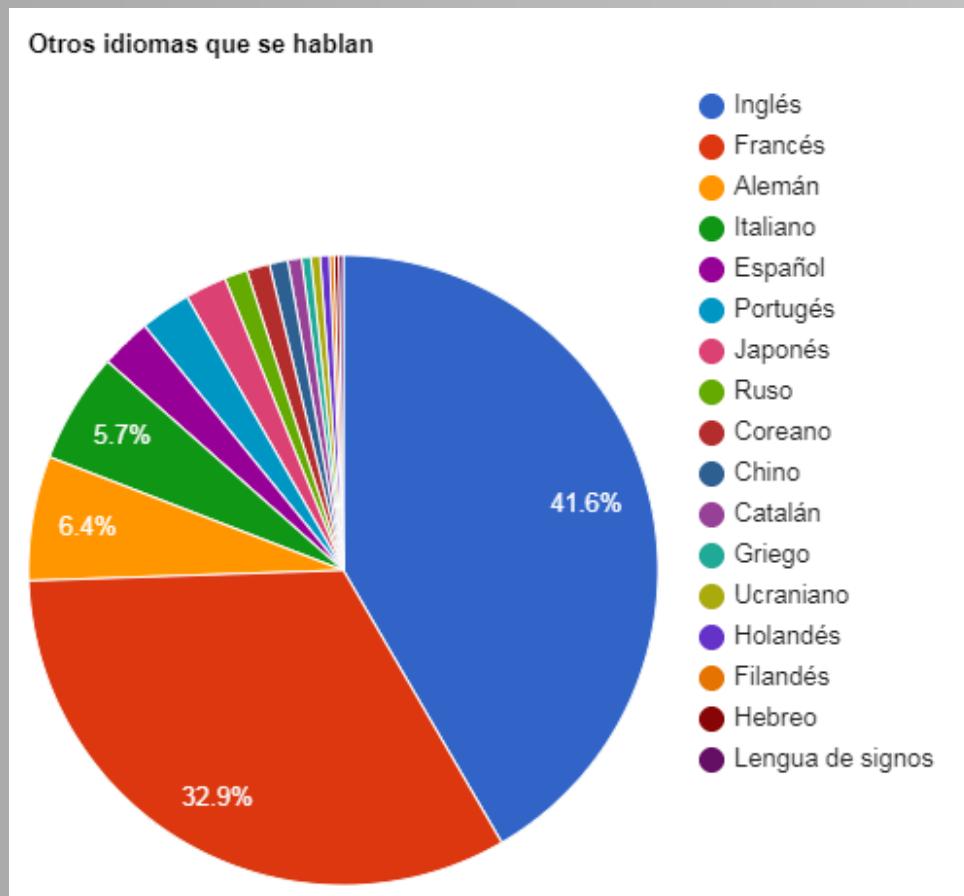

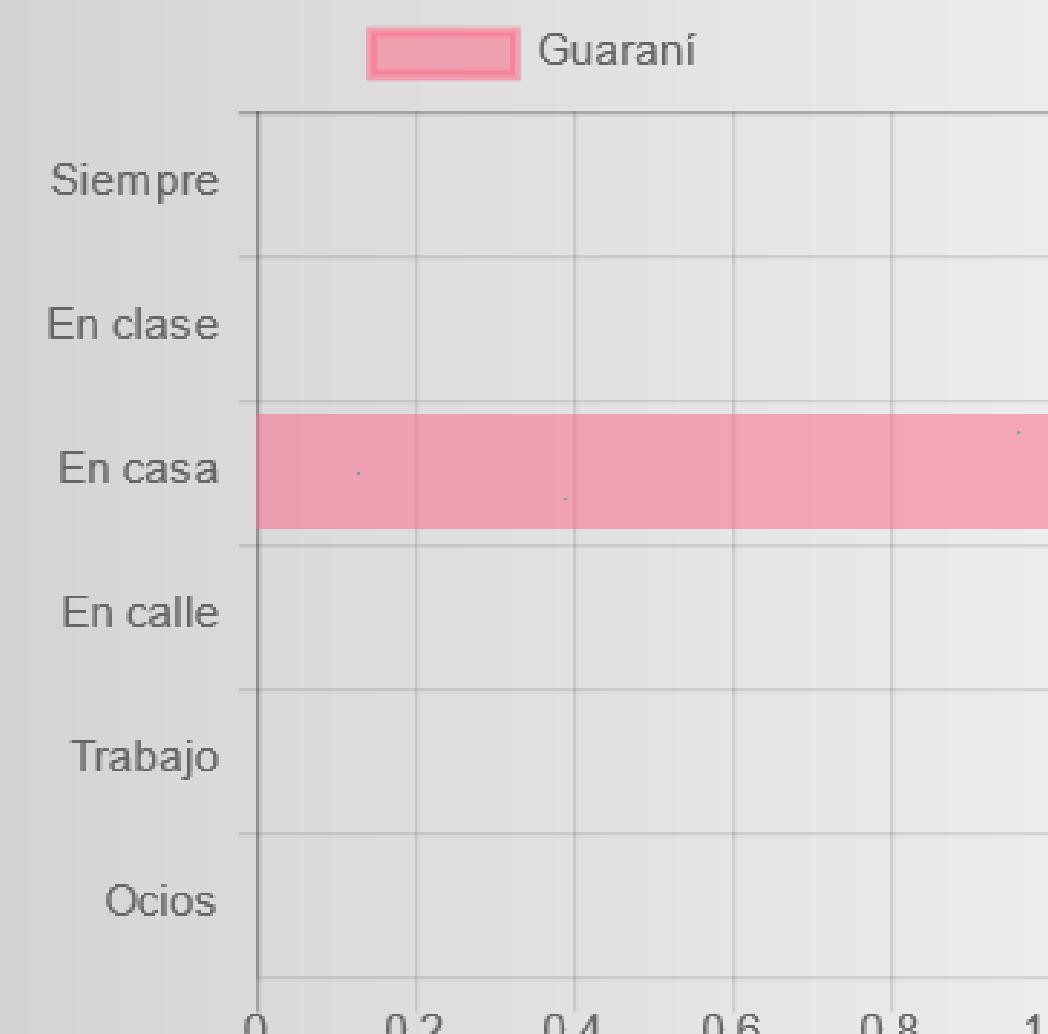

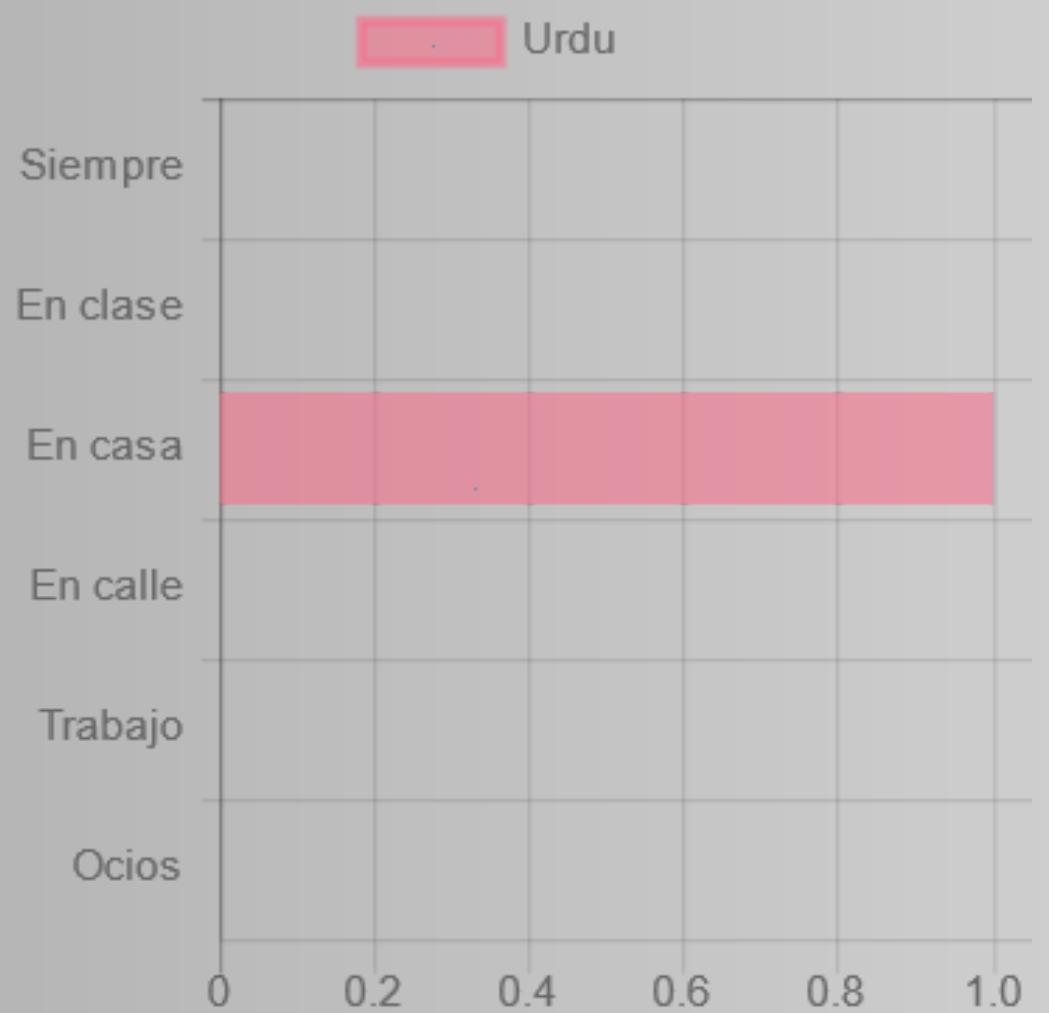

Aquí vienen los resultados:

La glotofobia es el abuso o el rechazo a la gente que tiene un acento diferente al nuestro.
